SHANGHAI

Accident Investigation / Road Vehicle Recovery **Workshop**

Mohd. Nordin Nozari & Ernest Khoo
Air Products Asia

What do we have in Air Products?

- **Emergency Response Teams**
- **Vehicle Recovery Teams**
- **The Expertise**
- **The Tools**
- **The Resources**
- **Qualified and Trained Personnel**

What are we concerned about?

- **Accidents/incidents keep repeating**
- **Root causes and other causal factors must be identified**
- **Preventive and corrective action must be spelled out and completed**

**Let's break up into separate teams
for discussion.**

How ready you are to handle an incident?

Please review:

- **Current team organization status & commitment**
- **Procedures**
- **Competencies and skills**
- **Equipment**

Questions

Please specify:

- When an accident happens, what went wrong?
- What useful things have you learned?
- What does your team need to do?

When an accident happens, what went wrong?

Inadequate...

- Procedures
- Communication
- Training
- Commitment
- Discipline
- Skills
- Exposure
- Rest

What *useful things* have you learned?

- Organization & System tools
- Incident investigation & management
- Share lessons learnt
- Equipment – Accident Investigation & Vehicle Recovery
- Techniques
- Be prepared

What does your team need to do?

Please specify:

- **What is needed?**

- **Organize Team(s)**
- **Procedures**
- **Training**
- **Equipment**
- **Competencies and skills – Conduct exercises**

What does your team need to do?

- What are the limitations and barriers?
- What is needed to overcome the barriers?
- Need assistance?

**THANK YOU
FOR YOUR PARTICIPATION**
